Experience

Nov 2024 - Mar 2025

Professional Development

- Focused period of skill enhancement and portfolio development to strengthen expertise in full-stack technologies and service-oriented architecture

May 2021 - Oct 2024

Software Developer, Deliverect

- Spearheaded the **implementation** of new feature requests, managing the process from research to development.
- Utilized **unit**, **integration**, and end-to-end **testing tools** to ensure the stability and high performance of the SaaS platform.
- **Reviewed** code and mentored junior developers to maintain consistent quality standards across the development team.
- Maintained the codebase of a SaaS product processing millions of daily orders for **major global brands** like Burger King, KFC, and PizzaExpress.
- **Enhanced** work efficiency and developer experience by updating internal tooling, improving project structure, and optimizing workflows.
- Conducted regular **performance improvements** to ensure **scalability** during rapid company growth.
- Managed multiple **high-priority** projects simultaneously, ensuring timely **delivery** in alignment with business goals.

Jan 2019 - May 2021

Designer & Developer, Skarabee

- **Collaborated** with clients to gather requirements and design user-friendly, fast-loading web interfaces tailored to specific needs.
- **Led** the design and development of web solutions, ensuring optimal performance and accessibility while adhering to **best practices**.
- Updated and **maintained legacy code** and templates, improving site functionality and modernizing outdated codebases.
- Developed **internal tools** and features for use by other teams, streamlining development processes and enhancing collaboration.

Jul 2018 - Feb 2019

Freelance Web Developer

- Led freelance web development projects for diverse clients, managing the complete development lifecycle from requirements gathering to deployment

Jan 2018 - Jun 2018

IoT Developer, Aptus

- Developed **responsive** web and **mobile interfaces** for IoT devices, ensuring optimal performance across various screen sizes and platforms.
- **Implemented** custom UI/UX designs using HTML, CSS, and React, improving site accessibility and reducing load times.
- Collaborated closely with **product owners**, designers, and backend developers to deliver **seamless integration** of front-end and back-end functionalities.
- **Managed projects** end-to-end, ensuring alignment with client expectations.

Education

Sept 2015 – Sept 2018

Bachelor of Digital Design and Development, at Howest University of Applied Sciences
